

Swiss-Ultimate Serum - Instructions for Use

Congratulations on your purchase of Swiss-Ultimate Serum. This special new wrinkle formula utilizes select European, Asian and North American ingredients to reduce the visible signs of aging (particularly under your eyes). *Swiss Ultimate Serum is a concentrated cosmetic formula to help improve visible firmness, skin tone and elasticity around your eyes, while helping to restore a youthful-looking eye-contour surface.* **In all cases, you must be satisfied. We stand behind our products with our 90-day, 100% "Swiss No-Hassle" satisfaction guarantee.** Please retain these instructions.

WE RECOMMEND THIS EASY, 24-HOUR SKIN TEST – PRIOR TO USING THE SERUM ON YOUR FACE FOR THE FIRST TIME;

HERE'S HOW: Swiss-Ultimate Serum is a professional-grade product, containing *scientifically-researched ingredients* to reduce the visible signs of aging on your face. Most clients find our product causes no irritation at all in regular use. However (in common with other products in this category) **we do recommend a 24-hour cosmetic skin test first, to ensure no irritation is experienced with your personal skin type.** **RECOMMENDED SKIN TEST LOCATION:** a very small patch under each eye, or behind your ears. **TEST QUANTITY:** Press the delivery-end of the syringe once to deliver a dose of Serum. **TEST APPLICATION:** Place a dot of the Serum in a very small (finger-sized) circle patch, under each eye or behind each your ears. Gently dab the Serum in a light motion. 12-hours later, apply a similar dose, in the same location and wait an additional 12 hours. **TEST RESULTS:** As long as no redness or irritation results in the test location, you may proceed to the regular use instructions, below. **If any redness or irritation occurs in the test area, do not proceed with regular use of the Serum** and please contact us for further guidance or a substitute product. Consult a Dermatologist if necessary.

1. Swiss-Ultimate Serum is intended to be applied **twice-daily**; once at night before bedtime, and once after your morning cleansing regime.
2. Swiss-Ultimate Serum's patent-pending, no-needle syringe package ensures you get the correct amount; remove the clear plastic cap from your no-needle syringe. Unlock the syringe by rotating it counter-clockwise. The applicator should then move smoothly and deliver a dose of Serum from the dispensing end, when you press on the white plastic plunger of the syringe.
3. **Press once on the white plastic plunger and deposit one full dose of Swiss-Ultimate Serum on the end of your ring-finger** (the finger next to your little-finger). **One dose should be enough Serum to apply under both eyes.** Apply the Serum onto the skin underneath your eyes in a light, dabbing-motion. Then, smooth the Serum into your skin with your ring-finger. **NOTE:** Many Cosmetologists recommend using the ring-finger because it is the weakest of your fingers - and most-suitable for applying treatments to the delicate skin under your eye.
4. Coverage of Serum on skin under your eyes should extend from one corner of your eye to the other corner, and downward approx. 1/2 inch (1.3cm) under your eyelid (the area where wrinkles tend to occur). If you need an additional dose of Serum to achieve the recommended coverage, simply press on the plunger again to deliver a second dose of Serum. Then apply to skin under your eyes, as required.
5. **CAUTION:** Be careful not get the Serum into the eye itself. Like all cosmetic skin treatments, Swiss-Ultimate Serum is designed to be applied to the skin *around* the eye, not in the eye. If you do get a little of the Serum in your eye, and irritation lasts more than 30-seconds, flush your eye with clean, running water from the tap. Consult medical advice if excessive irritation is experienced - either in the eye or on your facial skin. Do not ingest the product by mouth.
6. If you wish to apply Swiss-Ultimate Serum to other areas of your face (other than under the eyes) we recommend limiting the application to wrinkle-prone areas of skin on the forehead and corners of the mouth.

How Does Swiss-Ultimate Serum Work? This exclusive formula works by simultaneously; delivering ingredients that reduce the visible appearance of wrinkles, and applying a special layer to lock-in moisture. With this intensely-hydrating formula, we believe within 30-days you'll see Swiss-Ultimate Serum offers visible results to reduce the appearance of wrinkles.
